ANNUAL REPORT OF THE DAVID SASSOON INDUSTRIAL AND REFORMATORY INSTITUTION, MATUNGA, FOR THE YEAR 1934-35.

1. Twelve ordinary meetings of the Managing Committee were held during the year 1934-35.

The present personnel of the Committee is as follows :—

Nominated by Government.

R. K. Innes, Esq., B.Sc., J.P., Chairman.

A. G. Gray, Esq.

Shariff Dewjee Kanji, Esq.

Miss M. K. Davis, B.A., M.B.E., J.P.

Sir Currimbhoy Ebrahim, Bart.

Sir Hormazdyar P. H. Dastur, Kt., Ex-officio, Chief Presidency Magistrate, Bombay.

Appointed by the Sassoon Family.

A. Pether, Esq.

C. R. M. Tippett, Esq.

Co-opted by the Committee.

Ishwardas Lukhmidas, Esq.

R. L. Ferard, Esq.

Mr. H. H. Sawyer resigned from the Committee which passed the following resolution at its meeting held in November 1934 :—

"The Committee accepted the resignation of Mr. Sawyer from the Committee with very real regret and resolved to record its sincere appreciation of his keen interest in the Institution during his membership of Committee for 16 years in which time he acted as Chairman for 4 periods and at all times contributed very fully to the maintenance and development of all its activities designed for the welfare of the boys and staff."

2. *Accommodation and Building.*—The expenditure incurred by the Public Works Department on account of current repairs to the buildings during the year amounted to Rs. 2,989.

3. *Statistics.*—For details see tabulated Statements 1-4 attached at the end of this report.

The number of admissions during the year was 102 as against 108 in the previous year, and the number discharged was 119 compared with 97 in the previous year.

The admissions comprised commitments :—

(*a*) Under the Children's Act through Juvenile Court, Bombay	95
(*b*) Under the Children's Act through Juvenile Court, Bandra	3
(*c*) Under the Children's Act through other Courts ...	4
	102

The following analysis of commitments is of interest :—

Number committed during the year ...	102
Number committed as being destitutes ...	61 per cent.
Number committed for minor offences ...	12 per cent.
Number committed for major offences ...	25 per cent.

4. *Discipline.*—Has been maintained on a satisfactory level and it is very gratifying to observe that our punishment records show continuous reduction in volume compared with previous years due largely to the increasing ratio of destitute boys on admission.

5. *Education.*—Vernacular Standard IV Examination was held under the auspices of the Bombay Municipal Schools Committee with the following results :—

Marathi—18 boys passed out of 29 entered.

Gujerati—19 boys passed out of 19 entered.

Urdu—26 boys passed out of 32 entered.

The following number of boys passed the Vernacular V Standard Examination held by different Deputy Educational Inspectors :—

Marathi—13 boys passed out of 16 entered.

Gujerati—7 boys passed out of 7 entered.

Urdu—15 boys passed out of 19 entered.

One of our Gujerati Masters Mr. M. K. Bulsari passed his first year's training course and has been sent to the P. R. Training College, Ahmedabad, for the second year's course of training.

Government Drawing Examination Results :—

14 boys passed out of 15 in the Elementary Grade.

6 boys passed out of 6 in the Intermediate Grade.

One boy who appeared for the Intermediate Drawing grade Examination was awarded a prize of Rs. 6 in the Design drawing.

St. John Ambulance First Aid Examination :—

42 boys are under training.

Our thanks are due to Dr. J. M. Kotwal for conducting First Aid Classes voluntarily for the last seven years and also to Pandits Sharma and Ogale for imparting religious instruction to the Hindu boys, to Father Claraso for his interest in Christian boys and to the Dawoodbhai Fazalbhai Educational Trust for the services of a Moulvi for the Mahomedan boys.

Dr. J. D. Desai who was the Examiner of candidates for First Aid died and the Committee passed the following resolution :—

"The Committee heard with regret of the untimely death of Dr. J. D. Desai who has taken a keen interest in the St. John Ambulance First Aid Examination in our Institution and it was resolved to place on record the Committee's appreciation of good services rendered by him in training our boys since its introduction to the School and latterly as an Examiner."

We acknowledge the help rendered by Mr. V. S. Toro of the Visual Instruction Department and Dr. Tilak of the Baby and Health Week Association in supplying lantern slides from time to time. 98 Lantern Lectures were delivered during the year. Mr. K. T. Mantri, the Deputy Educational Inspector, delivered three lectures.

6. *Technical Education.*—The difficulty of finding trades likely to combine immediate value and utility to boys after discharge is a real one, and with a labour market overcrowded with seekers of employment it is not easy to place our boys. It was decided to abandon the Motor Mechanic's Class and to amplify agricultural and carpentry instructional facilities. Work in the Drawing class has been more closely associated with workshop training during the year. Dr. Burley's report on our technical instruction is again encouraging though it is realised that the most reliable criterion must be the success or otherwise of our boys in after life.

7. *Recreation.*—Cricket, Football, Swimming, Boxing and Indian games are being played and matches played during the year are as follows :—

	Played.	Won.	Lost.	Drawn.
Cricket ...	53	36	12	5
Football ...	19	17	...	2

The Boxing Club is making excellent progress under the direction of Mr. Pardiwalla. Our boys were entered for the following Tournaments :—

(*a*) Bombay Amateur Boxing Federation—

5 boys won medals.
5 boys received certificates.

(*b*) Bombay Boy Scouts Boxing Tournament—

4 boys won medals and our "Bunbury" Troop carried away the Championship Cup for the second time in succession.

(c) Bewoor Boxing Championship Shield for Cubs—

Our "Dastur" & "Ishwardas" Packs won the Championship Shield and 3 Cubs won Medals.

The Radio and Gramophone were extensively employed during the year.

8. The Swimming Bath was in continuous use and is of unquestioned value. The Inter Dormitory Swimming Competition was held and the "East Cup" was won by Dormitory No. III senior and No. VII junior.

9. The "Bunbury" Troop of Boy Scouts maintained its full strength and held its annual Camp Fire on 5th January 1935. Our Troop won the Sir Leslie Hudson Challange Cup in sports and our Scouts under 14 years won the "Sir Reginald Spence" Cup for Tug-of-War for the third time in succession and 4 Medals were won by our Scouts in sports held by the Local Boy Scouts Association.

10. The Annual Prize Distribution was held on 20th March 1935 when His Excellency Lord Brabourne, Governor of Bombay, presided.

11. *Finance.*—In spite of rigid economy in expenditure the year's working shows a deficit of Rs. 3,904-14-1 which is solely due to the loss of mill earnings which have entirely disappeared. My Committee regrets this unavoidable deficit.

12. *Workshop Accounts.*—The combined workshop accounts after deducting a sum of Rs. 5,655-15-0 (salaries of maistries) show a loss of Rs. 2,597-3-11 against Rs. 3,365-14-3 in the previous year.

13. *Auxiliary Home.*—Statistics will be found in Appendix 'C'. The home during the year catered for an unusually large number of boys and the accommodation and finances were strained. There has been an increasing number of readmissions and there is no mistaking the fact that boys emanating from the mofussil do not readily return to their homes. The lure of Bombay is very real to them. The Home is still under the management of the Salvation Army. Adjutant I. Argyle who is the Superintendent in immediate charge of the Home deserves the warmest praise for his efforts. Mr. E. Elisha who is the Secretary of the Home maintains connection between the Reformatory and the Home. In spite of the incidence of unemployment we have been fortunate in placing the boys in various jobs and desire to make a special mention of the officers of Manchester, Simplex, Kohinoor and Sassoon Spinning & Weaving Co. Ltd. for the interest and help they are rendering to our discharged boys.

14. The health of the boys has been good and there were no epidemics or illnesses of an alarming nature.

15. *Staff.*—The staff under the guidance of Mr. Desai continues to give every satisfaction, and all members devote many hours of their own time to supervising the recreative activities of the boys. I acknowledge this feature with real gratitude for the confidence

of the boys in their teachers and the inspiration given by the latter determines very largely the degree of influence rendered during the respective periods of stay of the boys.

16. *General.*—In my previous report I made mention of an amplified agricultural scheme which is working satisfactorily and my Committee feels that this phase must continue to be developed. I would desire to record the special help of Mr. A. G. Gray in this respect. Some attention has been devoted to the desirability of changing the prescribed dietary scales in view of the extensive researches being made by several authorities and official bodies. It is necessary to emphasise the close association of the Children's Aid Society with the welfare of the school, an Association which becomes of increasing importance considering the growing proportion of children admitted from Umarkhadi. The Medical Officer visits Umarkhadi at frequent intervals and every endeavour is made to ensure that the excellent work carried out by the Children's Aid Society is continued at Matunga.

In conlusion I would acknowledge the much needed assistance so generously rendered by the Committee.

R. K. INNES,
Chairman.

Extract from Chairman's Speech at the Annual Prize Distribution held on 20th March 1935.

Work in the class rooms continues to give much satisfaction, and a special word is called for in mentioning our Boy Scouts, a troop which bears the honoured name of " Bunbury ", and a troop which continues to occupy a leading place amongst the Scouts of our city. It is kept at full strength by virtue of recruitment from the " Dastur " and " Ishwardas Lukhmidas " packs of Wolf Cubs, which in turn are fed by admissions from the " Hotson " Pack which functions at Umarkhady.

Your Excellency may be interested to know of an innovation carried out recently through the introduction of a system of election of monitors by ballot. There would appear to be a scope for instruction in the correct usage of the ballot-box, and we trust Your Excellency will share our pleasure in the presentation of a special Prize to-day to the most popular monitor elected by the boys.

The range of training in our workshops has been a cause of concern during the year, and the Motor Mechanics Training Section has been discontinued.

It is not easy, indeed it is virtually impossible, to find employment for our boys when they leave us, in crafts in which they have received instruction.

It is becoming apparent to an increasing degree that it is in the best ultimate interest of our charge to stress workshop hours at the expense of class room exercises and at the moment some 50 lads are engaged in whole time workshop pursuits.

The Prince of Wales in launching a Jubilee Fund in Great Britain, designed to aid organisations providing for various phases of Welfare work amongst unfortunate young people, stated that "Youth needs three things to fit it for life—discipline, friends and opportunity".

We believe that the work of our staff results in the installation of discipline of the right type—we believe the presence of such a large number of old boys to-day indicates that the friendship of the school is valued, and we hope that as the scope for employment widens, not only our boys, but all those for whom the Children's Act was designed, will receive an opportunity to a greater degree in the search for work.

In acknowledging the aid of the Managing Committee—aid of a nature which renders a Chairman's position an extremely pleasant one—I desire to make a special mention of the retirement of Mr. H. H. Sawyer—a retirement unfortunately enforced through ill health. He was the member of the Committee for 16 years, and acted as Chairman for four periods, and throughout his long connection with the Institution it can be gratefully recorded that his advice and help were always of the utmost value.

His Excellency's Remarks at the Annual Prize Distribution.

The interest shown in Bombay in the problems of child welfare shows, I am pleased to say, no signs of flagging, and annual functions of this nature provide welcome opportunities of reviewing the progress which has been made and of drawing public attention to the problems which we still have to face in dealing with the question of destitute children and juvenile delinquency.

Public interest will no doubt be concentrated on that portion of Mr. Innes' report in which he refers to the progress which has been made in dealing with the recommendations of the Committee of inquiry into the Care of Destitute Children and Young Offenders. I understand him to suggest that though much has already been done, there are certain matters in which he would wish the pace to be a little more rapid. I fully agree with him when he says that much remains to be done in combining the financial, technical and education resources which are available if Government are to obtain the maximum value for the funds which they are now expending, but I would assure him that the Backward Class Officer is giving this matter his most careful attention.

Probation System.

I also agree with him when he implies that much of our future progress will depend on how far we are able to develop the probation system, by which I understand him to mean the system of release on licence and that on this depends the extent to which we can relieve the pressure on institutional accommodation, and thus make further headway in dealing with the large number of child cases which we are still unable to touch. I would, however,

point out that we are already taking steps in this direction and have under preparation legislation for the introduction of a Probation of Offenders Bill and for the necessary amendments of the Children's Act.

Even during the last year the system of probation in Bombay City has been considerably extended, and there are now about 30 supervisors or probation workers at Umarkhadi. The question of training probation workers, which is alluded to at length in the Report of the Committee to which I have referred, is perhaps the crux of the problem, as Mr. Innes implies, and I shall be glad to consider whether anything can be done to speed up the pace in this respect.

Turning to details, I am very glad to hear that this Institution continues to work so closely with the Children's Home at Umarkhadi. I also congratulate the staff and management in again being able to reduce the cost per head, for I need hardly say that, while it is the policy of Government to make the fullest provision for child welfare, even social service of this importance is limited by financial resources, and it is essential to obtain the greatest benefit from what we can provide.

After Employment.

I am concerned to hear that the problem of after-employment, which is always a pressing one, has been causing you even greater anxiety during the past year. I realise that, while it should be true that there is no lack of employment for really skilled workmen, the trades which it is possible to teach here are those in which competition is the greatest, and it is only natural that those who have served a longer apprenticeship than you can give in this institution should have first claim on the market. Nevertheless, I hope that the obligation which falls on employers of labour as public-spirited citizens to assist in the solution of this problem to the best of their ability will not be lost sight of by them. In the meantime I would specially thank Mr. Innes for what he personally has done in this respect. I also take the opportunity of recognising what we owe to the Sheppard After Care Association.

Before I conclude, I would mention one more matter to which I believe an allusion was made in one of my predecessor's speeches on these occasions. One of the gratifying developments to which the Committee of Inquiry into the Care of Destitute Children and Young Offenders drew attention was that the Reformatory Act is gradually becoming a dead letter in view of the different attitude now adopted towards the question of juvenile delinquency as represented in the Children's Act. The practical results of more beneficient legislation have been even more clearly shown in the case of this Institution, for I understand that the admissions are now mainly destitutes as opposed to delinquents. I therefore think the time has come to adopt the proposal of that Committee to change its name.

A New Name.

I have reason to believe that this is a change which would have the approval of your Managing Committee, and I feel sure it would be welcomed by those who have been connected with it in the past and its many other well wishers. If you will allow me to go further and suggest the new name, I think that the "David Sassoon Industrial School" would retain all the valued traditions of the Institution without drawing attention to the aspect which we desire to eliminate from modern ideas of penology.

STATEMENT No. 1.

Working results for the year 1934-35.

	Rs.	a.	p.
